1. Identification

1.1. Product identifier

Trade name Protectosil® BHN PLUS

1.2. Recommended use of the chemical and restrictions on use

Relevant applications identified For industrial use

1.3. Details of the supplier of the safety data sheet

Company Evonik Corporation
299 Jefferson Road
Parsippany, NJ 07054-0677
USA

Telephone 973-929-8000
Telefax 973-929-8040
Email address Product-Regulatory-Services@Evonik.com

1.4. 24 HOUR EMERGENCY TELEPHONE NUMBERS:

CHEMTREC - US & CANADA: 800-424-9300
CHEMTREC MEXICO: 01-800-681-9531
CHEMTREC INTERNATIONAL: +1 703-527-3887 (collect calls accepted)
Product Regulatory Services: 973-929-8060

2. Hazards identification

2.1. Classification of the substance or mixture

Classification according to Regulation 29CFR 1910.1200

- Flammable liquids Category 3 H226
- Skin irritation Category 2 H315
- Acute aquatic toxicity Category 3 H402

2.2. Label elements

Statutory basis Classification according to Regulation 29CFR 1910.1200
Symbol(s) Indicates flammability and skin irritation hazards.
SAFETY DATA SHEET
Protectosil® BHN PLUS

Material no. Specification Order number
Version Revision date Print date Page

4.1 / US 05/01/2015 09/16/2015 210/12

Signal word Warning
Hazard statement
H226 - Flammable liquid and vapor.
H315 - Causes skin irritation.
H402 - Harmful to aquatic life.

Precautionary statement:
Prevention
P210 - Keep away from heat/sparks/open flames/hot surfaces. - No smoking.
P233 - Keep container tightly closed.
P240 - Ground/bond container and receiving equipment.
P241 - Use explosion-proof electrical/ ventilaing/lighting/ equipment.
P242 - Use only non-sparking tools.
P243 - Take precautionary measures against static discharge.
P264 - Wash skin thoroughly after handling.
P273 - Avoid release to the environment.
P280 - Wear protective gloves/ eye protection/ face protection.

Precautionary statement:
Reaction
P303 + P353 - IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
P332 + P313 - If skin irritation occurs: Get medical advice/ attention.
P362 - Take off contaminated clothing and wash before reuse.
P370 + P378 - In case of fire: Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide to extinguish.

Precautionary statement:
Storage
P403 + P235 - Store in a well-ventilated place. Keep cool.

Precautionary statement:
Disposal
P501 - Dispose of contents/ container to an approved waste disposal plant.

2.3. Other hazards
None known.

3. Composition / information on ingredients

3.1. Substances not applicable

3.2. Mixtures

- **NJTSR No.56705700001-6651P** 92%
  - CAS-No.
  - Flammable liquids
  - Skin irritation

- **NJTSR No.56705700001-6740P** <= 8%
  - Trade Secret
  - Flammable liquids

4. First aid measures

4.1. Description of first aid measures

General advice
Remove contaminated or saturated clothing immediately and dispose of safely.
Inhalation
If aerosol or mists are inhaled, take affected persons out into the fresh air. Possible discomforts include severe irritation of mucus lining (nose, throat, eyes), cough, sneezing and flow of tears. In case of persistent discomfort, obtain medical attention immediately.

Skin contact
Immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Obtain medical attention. Wash clothing before reuse. Destroy or thoroughly clean contaminated shoes before reuse.

Eye contact
Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Do not allow contaminated water to contact the unaffected eye or face during irrigation of an affected eye. Consult an ophthalmologist.

Ingestion
If accidentally swallowed, rinse mouth thoroughly with water and afterwards, drink plenty of water. In case of discomfort, obtain medical attention. Never administer anything by mouth to an individual who rapidly losing consciousness, unconscious or convulsing.

4.2. Most important symptoms and effects, both acute and delayed

Symptoms
After absorbing large amount of substance, apply therapy for irritative effects. If substance has been swallowed, early endoscopy is recommended in order to assess mucosa lesions in the esophagus and stomach which may appear. If necessary, suck away leftover substance. Allergic reactions cannot be excluded. Apply treatment of allergic reaction if necessary.

4.3. Indication of any immediate medical attention and special treatment needed
If required, therapy of irritative effect.
If substance has been swallowed:
Early endoscopy in order to assess mucosa lesions in the oesophagus and stomach which may appear. If necessary, aspirate leftover substance.

5. Fire-fighting measures

5.1. Extinguishing media
Suitable extinguishing media: water spray, foam, Carbon dioxide (CO2), dry powder
Unsuitable extinguishing media: High volume water jet

5.2. Special hazards arising from the substance or mixture
Flammable liquid. Vapors can travel to a source of ignition and flash back. Explosive mixtures may occur at temperatures at or above the flashpoint.

5.3. Advice for firefighters
Containers can build up pressure if exposed to heat (fire). Cool with water spray. As in any fire, wear self-contained positive-pressure breathing apparatus, (MSHA / NIOSH approved or equivalent) and full protective gear.

6. Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures
Use personal protective equipment.

6.2. Environmental precautions
Obey relevant local, state, provincial and federal laws and regulations. Do not contaminate any lakes, streams, ponds, groundwater or soil.
6.3. **Methods and material for containment and cleaning up**

Soak up with absorbent material, e.g., sand, silica gel, acid binder, universal binder or sawdust. Place in a marked, sealable container and dispose of in accordance with existing federal, provincial, state and local regulations.

**Additional advice**
Defect containers must be isolated and sealed immediately.

7. **Handling and storage**

7.1. **Precautions for safe handling**

Keep away from heat. Keep away from sparks, flames and other sources of ignition. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Use with adequate ventilation. Ground and bond containers when transferring material. Use explosion-proof equipment. Follow all MSDS/label precautions even after the container is emptied because it may retain product residues. Wash thoroughly after handling.

7.2. **Conditions for safe storage, including any incompatibilities**

**Advice on protection against fire and explosion**
Normal measures for preventive fire protection.

**Storage**
Keep containers tightly closed in a cool, well-ventilated place. Protect from moisture. Residual vapors might explode on ignition; do not apply heat, cut, drill, grind or weld on or near this container.

Keep containers tightly closed in a cool, well-ventilated place.
Protect from moisture.

**German storage class**
3 - Flammable liquids

8. **Exposure controls / personal protection**

8.1. **Control parameters**

8.2. **Exposure controls**

**Engineering measures**
Use process enclosures, local exhaust ventilation or other engineering controls to control airborne exposure.

**Personal protective equipment**

**Respiratory protection**
A respiratory protection program that meets OSHA 1910.134 and ANSI Z88.2 or applicable federal/provincial requirements must be followed whenever workplace conditions warrant respirator use. NIOSH's "Respirator Decision Logic" may be useful in determining the suitability of various types of respirators.

**Hand protection**
Glove material for example, Polychloroprene (PCP)
Material thickness 0.5 mm
Break through time >= 480 min
Glove material for example, Fluorinated rubber (FKM)
Material thickness 0.4 mm
Break through time >= 480 min

Use impermeable gloves.
Eye protection
Use chemical splash goggles or face shield.

Skin and body protection
A safety shower and eye wash fountain should be readily available.
To identify additional Personal Protective Equipment (PPE) requirements, it is recommended that a hazard assessment in accordance with the OSHA PPE Standard (29CFR1910.132) be conducted before using this product.

Hygiene measures
Avoid contact with skin, eyes and clothing. Do not inhale vapors or aerosols. Do not eat, drink, or smoke when using the product. Remove contaminated or saturated clothing.

9. Physical and chemical properties

9.2. Other information

% VOC (gm/l) 400

10. Stability and reactivity

10.1. Reactivity
No dangerous reaction known under conditions of normal use.

10.2. Chemical stability
Stable under recommended storage conditions.

10.3. Possibility of hazardous reactions
Possibility of hazardous reactions known. No dangerous reactions known.

10.4. Conditions to avoid
Avoid high temperatures and sources of ignition.

10.5. Incompatible materials
Water, Acids, Oxidizing agents

10.6. Hazardous decomposition products
Ethanol in case of hydrolysis, Silicone polymers.
This product is stable under normal storage conditions. Product will not undergo hazardous polymerization.

11. Toxicological information

11.1. Information on toxicological effects

No toxicological studies are available on the mixture.

Acute inhalation toxicity
Acute toxicity estimate: 6.39 mg/l / 4 h / dust/mist
Method: Calculation method

Carcinogenicity assessment
Contains ethylbenzene which is classified as an IARC 2B carcinogen (possible carcinogenic to humans).

Further information
The toxicological properties of this product have not been fully investigated.

Toxicological information on components

Isobutyltriethoxysilane
Acute oral toxicity
LD50 Rat: > 5000 mg/kg
Method: OECD Test Guideline 401

Acute inhalation toxicity
LC50 Rat: 5.88 mg/l / 4 h / dust/mist
Method: OECD Test Guideline 403
Assessment: The substance or mixture has no acute inhalation toxicity

Acute dermal toxicity
LD50 Rat: > 2000 mg/kg
Method: OECD Test Guideline 402
Assessment: The substance or mixture has no acute dermal toxicity

Skin irritation
Rabbit
Skin irritation
SAFETY DATA SHEET
Protectosil® BHN PLUS

Method: OECD Test Guideline 404

Rapid evaporation of the liquid may cause frostbite.

Eye irritation
Rabbit
No eye irritation
Method: OECD Test Guideline 405

Sensitization
maximization test Guinea pig: Does not cause skin sensitization.
Method: OECD Test Guideline 406

Repeated dose toxicity
Oral Rat / 28-day
NOAEL: > 1000 mg/kg
Method: OECD Test Guideline 407

Assessment of STOT single exposure
Assessment: The substance or mixture is not classified as specific target organ toxicant, single exposure.

Assessment of STOT repeat exposure
Assessment: The substance or mixture is not classified as specific target organ toxicant, repeated exposure.

Risk of aspiration toxicity
No aspiration toxicity classification

Gentoxicity in vitro
Ames test Salmonella typhimurium
negative
Method: OECD TG 471

chromosomal aberration Chinese hamster (V 79 -cells)
negative
Method: OECD TG 473

chromosomal aberration Chinese hamster (CHO K1 -cells)
negative
Method: OECD TG 476

Gentoxicity in vivo
chromosomal aberration Mouse Oral
negative
Method: OECD TG 474

Carcinogenicity
No evidence that cancer may be caused.

Toxicity to reproduction
Animal model trials have produced no evidence of fertility damage.

12. Ecological information

12.1. Toxicity

No ecotoxicological studies are available on the mixture.

12.2. Persistence and degradability

12.3. Bioaccumulative potential
12.4. Mobility in soil

12.5. Other adverse effects

Further Information  The data is based to the main component.

13. Disposal considerations

13.1. Waste treatment methods

Product

Waste must be disposed of in accordance with federal, state and local regulations. Incineration is the preferred method.

Uncleaned packaging

Do not reuse empty containers and dispose of in accordance with the regulations issued by the appropriate local authorities.

If there is product residue in the emptied container, follow directions for handling on the container's label.

Incorrect disposal or reuse of this container is illegal and can be dangerous.

Other countries: observe the national regulations.

14. Transport information

D.O.T. Road/Rail

14.1. UN number: UN 1993
14.2. UN proper shipping name: FLAMMABLE LIQUID, N.O.S. (Alkyl ester)
14.3. Transport hazard class(es): 3
14.4. Packing group: III
14.5. Environmental hazards (Marine pollutant): --
14.6. Special precautions for user: No

Air transport ICAO-TI/IATA-DGR

14.1. UN number: UN 1993
14.2. UN proper shipping name: Flammable liquid, n.o.s.(Alkyl ester)
14.3. Transport hazard class(es): 3
14.4. Packing group: III
14.5. Environmental hazards: --
14.6. Special precautions for user: Yes

IATA-C: ERG-Code 3L

Maximum Net Quantity per Package 220 L

IATA-P: ERG-Code 3L

Maximum Net Quantity per Package 60 L

Sea transport IMDG-Code/GGVSee (Germany)

14.1. UN number: UN 1993
14.2. UN proper shipping name: FLAMMABLE LIQUID, N.O.S.(Alkyl ester)
14.3. Transport hazard class(es): 3
14.4. Packing group: III
14.5. Environmental hazards (Marine pollutant): --
14.6. Special precautions for user:

No

EmS: F-E, S-E

14.7. Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code: for transport approval see regulatory information

15. Regulatory information

US Federal Regulations

OSHA
If listed below, chemical specific standards apply to the product or components:

• None listed

Clean Air Act Section (112)
If listed below, components present at or above the de minimus level are hazardous air pollutants:

• None listed

CERCLA Reportable Quantities
If listed below, a reportable quantity (RQ) applies to the product based on the percent of the named component:

• None listed

SARA Title III Section 311/312 Hazard Categories
The product meets the criteria only for the listed hazard classes:

• Acute Health Hazard
• Fire Hazard

SARA Title III Section 313 Reportable Substance s
If listed below, components are subject to the reporting requirements of Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372:

• None listed

Toxic Substances Control Act (TSCA)
If listed below, non-proprietary substances are subject to export notification under Section 12 (b) of TSCA:

• None listed
State Regulations

The Listing requirements of the Right to Know (RTK) legislation varies by state. All information for NJ, PA, MA and other states can be derived from the listing of hazardous and non-hazardous components in section 2 and 15 of this MSDS.

California Proposition 65

A warning under the California Drinking Water Act is required only if listed below:

- None listed

An employer using HMIS/NFPA labeling must through training ensure that its employees are fully aware of the hazards of the chemicals used.

HMIS Ratings

| Health: | 2 |
| Flammability: | 3 |
| Physical Hazard: | 1 |

NFPA Ratings

| Health: | 2 |
| Flammability: | 3 |
| Reactivity: | 1 |
